SUMMARY

Computer Science student at Bhayangkara University Jakarta Raya with an interest in web development, programming, and data science. Experienced in building web-based systems using PHP & MySQL, as well as proficient in Python for data analysis. Accustomed to working in teams, disciplined, and detail-oriented. Seeking opportunities to contribute to large technology companies with innovative solutions.

SKILLS

- Programming: HTML, CSS, JavaScript, Python, PHP
- Database: MySQL, MongoDB
- Tools: Git, GitHub, VS Code, Figma, Microsoft Office, Canva
- Soft Skills: Communication, Problem Solving, Time Management, Teamwork

EXPERIENCE

Part-Time Staff | Hawdimsums (2023 – 2025)

- Manage daily outlet operations, including customer service and cashier transactions.
- Maintain the cleanliness and tidiness of the work area in accordance with company standards.
- Handle payment transactions using the cashier system efficiently.

Project | Practical Work Scheduling Website (2024)

- Developing a web-based scheduling system using PHP & MySQL.
- Used by students to organise their practical work schedules in a structured manner.

Intern | Kecamatan Tambun Utara – Public Service Division (2026)

- Built an official public service website for Kecamatan Tambun Utara using React.js and JavaScript for a responsive front-end experience.
- Managed and stored community service data using Supabase and PostgreSQL as the database solution.
- Coordinated with local government staff to ensure the website met operational and public communication needs.

EDUCATION

- Bhayangkara University Jakarta Raya — Informatics (2023 – Sekarang)
- Senior High School 1 North Tambun — (2020–2023)

PROJECTS & PORTFOLIO

- Simple Practicum Scheduling Website
- Arduino-Based Door Lock System
- GitHub Portfolio: github.com/wafi-art
- EchoMind – AI Smart Waste Management Platform
